

OLIVEIRA MIGUEL ANGEL

3714 E HARDING AVE ALTON, Texas 78573

Email: olimiguel888@gmail.com

Nationality: American | Marital Status: Single | Birthday: 10/21/1990 | Gender: Male

OBJECTIVE

Highly motivated Data Scientist with expertise in machine learning, statistical modeling, and big data analytics, specializing in remote-based projects and international collaborations. Experienced in delivering data-driven insights for businesses in technology, finance, healthcare, and e-commerce sectors. Passionate about leveraging data to optimize operations, forecast trends, and build predictive models. Seeking to contribute to global organizations as a remote data scientist, applying advanced data analytics to solve complex business challenges.

WORK EXPERIENCE

Freelance (Global Clients)

Remote Data Scientist

01/2022 - Present

- Delivered data-driven business insights for startups across North America, Europe, and Asia.
- Developed and deployed machine learning models for customer segmentation, demand forecasting, and fraud detection.
- Built interactive dashboards and data visualization reports using Power BI and Tableau.
- Increased business efficiency for clients by up to 30% through data-informed recommendations.

Texas FinTech Solutions, Austin

Junior Data Scientist

06/2020 - 12/2021

- Assisted in credit risk modeling using logistic regression and random forest.
- Conducted real-time transaction data analysis to detect anomalies and fraud cases.
- Implemented data pipelines for ETL processes using Python and SQL.
- Collaborated remotely with cross-border teams for predictive analytics projects.

North America Digital Research Hub, Houston

Data Analyst Intern

08/2019 - 05/2020

- Performed exploratory data analysis (EDA) on large datasets.
- Cleaned, pre-processed, and structured raw data for modeling.
- Prepared monthly reports on consumer digital behavior.
- Presented insights to researchers and partner companies.

EDUCATION

University of Texas at Austin (UT Austin), Austin

Bachelor of Science in Data Science & Big Data Analytics

09/2017 - 09/2021

GPA: 3.85/4.0

PROJECTS

E-Commerce Sales Forecasting (2023)

- Built a time-series forecasting model (ARIMA, Prophet) to predict monthly sales.
- Helped an e-commerce client improve inventory management and reduce overstock by 18%.

Healthcare Predictive Analytics (2022)

- Collaborated with a remote healthcare startup to develop a predictive model for patient readmission.
- Used Python (scikit-learn, XGBoost) to improve accuracy to 92%.

Fraud Detection Model (2021)

- Designed a real-time fraud detection system for a fintech company.
- Reduced false positives by 25%, saving operational costs.

Social Media Sentiment Analysis (2020)

- Scraped and analyzed Twitter and Facebook data for brand monitoring.
- Conducted NLP-based sentiment analysis with Python's NLTK and spaCy.

SKILLS

- **Programming:** Python, R, SQL, MATLAB
- **Machine Learning:** scikit-learn, TensorFlow, PyTorch
- **Data Visualization:** Tableau, Power BI, Matplotlib, Seaborn
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Languages:** English (Native), Spanish (Fluent), Japanese (Intermediate)

INTERESTS

- Artificial Intelligence & machine learning research
- Blockchain data analytics and cryptocurrency forecasting
- Sports analytics (basketball & baseball performance modeling)
- Writing blogs about data visualization and predictive modeling
- Exploring open-source AI projects

ACTIVITIES

- Member of Texas Data Science Association (TDSA)
- Mentor for online data analytics bootcamps
- Contributor to Kaggle competitions with top 10% ranking in several projects
- Organized virtual workshops on Python for Data Analysis

- Volunteered as a data consultant for NGOs promoting sustainable development
